

Virginia Coastal Zone Management Program FY 2005 (NA05NOS4191180) Task 11 Final Report

First Landing Board Walk Trail

This project consisted of the construction of a 450 foot elevated board walk connecting the Visitor Center at First Landing State Park with the beach. The board walk is a fully handicapped accessible structure elevated to cross the parks dune system. The project was completed and made available for public use on April 20, 2007. It should be noted that this project involved a number of funding sources including \$30,000 of CZM funds, \$130,000 of state funds and \$100,000 of Recreational Trail Funds.
